Dear President Falconer.

an application for a commission in the imperial army which I recently made, has just been returned from the War Office, on account of being improperly filled out. as I have been at University during the four years prior to time of enlistment. my application will have to be signed "by the head of the establishement" If you could see fit to certify to my character and education. I should deem it a great kindness. The paragraphs to be signed, are No's II, and III on page Two of the enclosed forms.

Thanking you for your willingness to assist me in this matter. which you have already expressed at a former date, I remain.

Yours respectfully
W Dorland Evans.
